

The National Parent Education Center
We Help Parents Create Quality Education For Their Children.

HONEST and SUCCESSFUL ... The National Parent Education Center was founded as an answer to the lack of honesty. Some of the problems plaguing schools across Georgia and across the Nation are: 1) Low standards and low expectations 2) Grade inflation 3) Inadequate curriculum 4) Willingness to mislead parents about their child's abilities 5) Willingness to mislead students about their abilities... Over the years, **TNPEC** has become recognized as the serious organization for parents who are serious about getting the highest level of quality education for their child.

What you should know about education:

	Adequate Education State Law		Quality Education → → →		Qualifiers	← ← ← High Quality Education	
	Programs	Performance Indicators	Programs	Performance Indicators		Programs	Performance Indicators

Overview of U.S. Education according to Quality... Should not be used as the sole determining factor in choosing a school/educational program.

Check school district for specific local programs.
